

# HAMMAD UR REHMAN

Wah Cantt, Punjab — hammad.rehman2004@gmail.com — linkedin.com/in/hammad2004

## Objective

Computer Science graduate with a focus on backend development for web and machine learning systems, experienced in designing and developing scalable and efficient software solutions.

## Skills

|                        |                                            |
|------------------------|--------------------------------------------|
| <b>Languages:</b>      | C, C++, Python, JavaScript                 |
| <b>Backend:</b>        | NestJS, FastAPI, REST APIs, Authentication |
| <b>Tools:</b>          | MySQL, Apache, Git                         |
| <b>Data Analytics:</b> | Pandas, NumPy, Matplotlib, Power BI, Excel |
| <b>Soft Skills:</b>    | Teamwork, Problem Solving, Communication   |

## Education

### Bachelor of Science in Computer Science

*Sept 2022 – Present*

Bahria University E-8, Islamabad

CGPA: 3.08/4.00

## Experience

### Backend Developer Intern

*June 2025 – Aug 2025*

Agentic Soft

- Developed and maintained RESTful APIs using FastAPI and NestJS for web applications
- Implemented authentication and authorization mechanisms for secure backend systems
- Contributed to code reviews and followed best practices for scalable backend development

### Data Analyst Intern

*Sept 2025 – Oct 2025*

SoftBox Technologies

- Performed exploratory data analysis using Pandas, NumPy, and Matplotlib on structured datasets
- Created dashboards and visual reports using Power BI and Excel for business insights
- Collaborated with teams to present findings and support data-driven decision-making

## Projects

### VisiHealth AI – Medical Visual Question Answering System (FYP)

- Developing a MedVQA system and backend APIs for model inference and data processing

### AccessHire – Job Portal for Visually Impaired

- Developing an accessible job portal with authentication, job listings, and user management

### VelocityMD – Doctor Scheduling System

- Built backend scheduling logic and designed RESTful APIs for appointments and user data

### Metro Ticketing System – MERN Stack

- Developed a MERN-based metro ticketing platform with booking features

## Achievements

- 1st Position (CS Dept) – FYP Open House 2026 — Bahria School of Engineering & Applied Sciences
